Exploratory research is research conducted for a problem that has not been studied more clearly, intended to establish priorities, develop operational definitions and improve the final research design. Exploratory research helps determine the best research design, data-collection method and selection of subjects. It should draw definitive conclusions only with extreme caution.

Exploratory research - Wikipedia

BARC research reports are focused on helping companies find the right software solutions to align with their business goals. Our reports provide insights into market developments and dispense proven best practice advice for businesses embarking on a software evaluation project.
