Planning for Construction. To achieve the client's aspirations on cost, programme and quality, planning for construction should start at the very beginning of the design process. Such planning should consider the construction sequence, the design factors that affect buildability, and site practice in terms of typical erection plant.

Stone Complete. The masons laid the last wall stone on March 28th 2018. The first had been laid on February 7th 2016. So it was over two years. It didn't need to take so long but we had supplier problems and changed crews a couple times and had small crews generally.

Building My Castle — A dream come true.

A bridge is a structure built to span a physical obstacle, such as a body of water, valley, or road, without closing the way underneath. It is constructed for the purpose of providing passage over the obstacle, usually something that can be detrimental to cross otherwise. There are many different designs that each serve a particular purpose and apply to different situations.
