deltrav, Get under your mower, look at the right hand side steering rod that runs from the stick back to the hydro wheel motor. If your belt is rubbing that rod, take a heavy zip tie, pull the rod

over to the outside of the mower about 3/4" and that should stop your belt throwing and breaking if it is breaking before it comes off.

Before replacing the clutch, replace the battery. Most of the problems that we have with electric clutches usually end up being a bad battery. YES it would be a clutch that is bad, but the battery should be replaced FIRST just to make sure that it is not the problem..Make sure that you buy a VERY GOOD battery that has at least 300 cranking amps.
