I am finding it really difficult to study for cell biology. My professor is using Essential Cell Biology 3e by Alberts. I asked him how to study and he simply said go over figures in the book and memorize definitions. This wasn't the answer I was looking for. I wish this book came with a study guide. Are there study guides for cell biology?

### **Studying for Cell Biology? — College Confidential**

In this book we therefore focus on providing a digestible, straightforward, and engaging account of only the essential principles. We seek to explain, in a way that can be understood even by a reader approaching biology for the first time, how the living cell works: to show how the molecules of the cell—especially the protein, DNA, and RNA ...
