In this comic, you'll follow the investigation of scientists Maria and Miguel as they solve a paleontological mystery. About 11,000 years ago, more than 80% of the large animal species in South America went extinct. Why did it happen? Maria and Miguel study an area in Chile called Ultima Esperanza ...

Understanding Evolution

The theory of evolution by natural selection, first formulated in Darwin's book "On the Origin of Species" in 1859, is the process by which organisms change over time as a result of changes in ...

Darwin's Theory of Evolution: Definition & Evidence

Activities. Show the NOVA video "Dogs and More Dogs" and have students play the "From Wolf to Dog" card game. It is not necessary to see the video to do this activity. Watch the NOVA video "Hawaii Born of Fire" and have the students do the accompanying activity.; Have students prepare arguments for a moot court case in this "Scopes Trial Activity." ...

Evolution - Awesome Science Teacher Resources

The other day, I saw a post on Facebook from a mom who was concerned because her teenage daughter was turning away from God after learning about evolution. The mom was considering pulling her out of public school because she wasn't sure what to do about it. It breaks my heart when I see parents ...

4 Key Points Christian Kids Need to Understand About Evolution

One of the leading arguments for human evolution from a shared common ancestor with apes is the "chromosome 2 fusion model." This hypothetical model proposes that the end-to-end fusion of two small ape-like chromosomes resulted in the human chromosome 2, which supposedly explains the difference in chromosome numbers between humans and great apes.¹ A graphical depiction of the fusion model ...

New Research Undermines Key Argument for Human Evolution

Biology - Wikipedia

Darwin and Natural Selection. Most educated people in Europe and the Americas during the 19th century had their first full exposure to the concept of evolution through the writings of Charles Darwin. Clearly, he did not invent the idea. That happened long before he was born. However, he carried out the necessary research to conclusively document that evolution has occurred and then made the ...

Early Theories of Evolution: Darwin and Natural Selection

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.
