Now that our review for Academic Emergency Medicine has been published, I wanted to devote a few words to a discussion that didn't make it into the article.. We spent a lot of time trying to collate what's known about one specific phenomenon: the blunt trauma patient with an "unstable" acute injury to his spine who suffers sudden neurological deterioration as a result of ordinary ...

How the e-CF can help you. The European e-Competence Framework provides a common language to describe the competences including skills and knowledge requirements of ICT professionals, professions and organisations at five proficiency levels, and is designed to meet the needs of individuals, businesses and other organisations in public and private sectors.

European e-Competence Framework

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
