Like the fourth letter of the Greek alphabet, delta, the deltoid (-oid = "like") muscle is triangular in shape, with its apex pointing distally along the humerus. It is the most superficial muscle spanning the glenohumeral joint, and gives the deltoid region of the shoulder its rounded appearance.. Understanding the deltoid muscle, especially its functions and innervation, is very important ...

The kidney is a bean-shaped structure with a convex and a concave border. A recessed area on the concave border is the renal hilum, where the renal artery enters the kidney and the renal vein and ureter leave. The kidney is surrounded by tough fibrous tissue, the renal capsule, which is itself surrounded by perirenal fat, renal fascia, and pararenal fat. ...
