Eye Examination Guidelines Regular eye examinations are important for children and adults because the eyes can be good indicators of overall health. Like many other health conditions, eye conditions can be treated if detected early.

Eye Examination Guidelines | Kellogg Eye Center | Michigan ...

Eye exam guidelines are different for everyone and depend on your age, family history, and whether or not you have a chronic disease. Making a visit to the eye doctor at the right time means that he or she will have the chance to find any problems early on, when they are most treatable.

Read guidelines for when to have an eye exam. - February ...

Ophthalmologists Recommend a Check to Establish a Baseline of Eye Health. The Academy now recommends that adults with no signs or risk factors for eye disease get a baseline eye disease screening at age 40 — the time when early signs of disease and changes in vision may start to occur. Based on the results of the initial screening, an ophthalmologist will prescribe the necessary intervals for follow-up exams.

Get an Eye Disease Screening at 40 - American Academy of ...

Eye Exam Recommendations. People at higher risk for eye diseases need to be examined more often. For example, adults with diabetes should have yearly eye exams. Other people at higher risk include African Americans over age 40, people with a family history of eye disease, or those with a history of eye injury.

Eye Exam Recommendations - Eyes Home Page

To keep your eyes healthy, get a comprehensive dilated eye exam: an eye care professional will use drops to widen the pupils to check for common vision problems and eye diseases. It's the best way to find out if you need glasses or contacts, or are in the early stages of an eye disease. If you haven't had a comprehensive dilated eye exam for some time, schedule one now.

Keep an Eye on Your Vision Health | Features | CDC

News » My Take on New Ocular Screening Guidelines for Plaquenil. ... It is thought that although the bull's eye seen on ophthalmic exam represents a disruption of the pigmented part of the retina, it is the photoreceptors that are the targets of hydroxychloroquine toxicity.
