Economic Survey 2012 Ch5: Capital market intermediaries

A computer network is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as Wi-Fi.. Network computer devices that originate, route and terminate the data are called ...

While replying to some of the comments 2 days back, something caught my attention. One of the reader wanted my opinion on what he should do with his Jeevan Saral Policy for which the first premium was paid by the agent and future premiums were to be paid by him. As this happened recently in Jan 2012 only, the first premium had been invested (by agent) and he had to pay his future premiums ...

Why some agents pay your first year insurance premium
