Epic Clarity; Epic Clarity Clarity Overview. The Clarity database is a large subset of data that comes from the PennChart (Epic) application. The data is transferred from the PennChart Chronicles database to Clarity, a Microsoft SQL Server database comprised of over 18,000 tables, in a load called the ETL (Export, Transform, and Load).

### **Epic Clarity | Data Analytics Center | Perelman School of ...**

Clarity reports can be run over very large data sets without slowing down your production server. They also can include complex grouping and mathematics, and can be used to integrate reporting on Epic and non-Epic data.

### **Clarity Data Model Fundamentals Review Questions**

Clarity data is not real time, so any operational data will be out-of-date from the moment they're generated. They also can not be used interactively, such as in a workflow where the report jumps a user to a patient's chart.
