Rare, medium or done? A Western history of definitions & preferences According to the Oxford English Dictionary, the word "rare," counterbalancing "done" describing the doneness of meat, descends from the word "rear," meaning imperfectly cooked or underdone. The original culinary use described eggs. The earliest print reference to the word "rare" relating to meat cookery is circa 1615.

The Food Timeline: history notes-meat

Our company is commercializing miniature mass spectrometer technology first developed for the International Space Station (ISS). The 1st Detect Miniature Chemical Detector is a broadband detector capable of detecting residues and vapors from explosives, chemical warfare agents, toxic chemicals, food and beverage contamination, illicit drugs and pollution.

Game theory is the study of mathematical models of strategic interaction between rational decision-makers. It has applications in all fields of social science, as well as in logic and computer science. Originally, it addressed zero-sum games, in which one person's gains result in losses for the other participants. Today, game theory applies to a wide range of behavioral relations, and is now an ...
