Concepts of Interception Caching. Interception Caching goes under many names - Interception Caching, Transparent Proxying, URL rewriting, SSL-Bump and Cache Redirection. Interception Caching is the process by which HTTP connections coming from remote clients are redirected to a cache server, without their knowledge or explicit configuration.

FreeBSD has a software repository of over 26,000 applications that are developed by third parties. Examples include: windowing systems, web browsers, email clients, office suites and so forth. In general, the project itself does not develop this software, only the framework to allow these programs to be installed, which is known as the Ports collection.

The pledge “At a public conference I won’t serve on a panel of two people or more unless there is at least one woman on the panel, not including the Chair.”

The Pledge - I will not be part of male-only panels - Owen ...

Purdue University is a public research university in West Lafayette, Indiana, and the flagship campus of the Purdue University system. The university was founded in 1869 after Lafayette businessman John Purdue donated land and money to establish a college of science, technology, and agriculture in his name. The first classes were held on September 16, 1874, with six instructors and 39 students.
