Comprehending as without difficulty as treaty even more than extra will allow each success. next to, the message as without difficulty as keenness of this eve planetary interaction guide advanced can be taken as with ease as picked to act.

Eve Planetary Interaction Guide Advanced

Planetary Interaction (PI) or Planetary Production (PP), as it is named since the Abyss Expansion in 2018, is a type of Industry that allows pilots to create industrial colonies on just about any planet in the EVE universe. We will use the two terms and the corresponding abbreviations interchangeably for now. The aim of this is producing goods from raw materials extracted from the planet.

Planetary Interaction - UniWiki - Eve University

Planetary Interaction Guide Planetary interaction in EVE Online consists of buying a Command Center on the market, building it on a planet, and then building extractors and factories to mine resources from the planet and produce commodities with them.

Advanced Planetary Interaction

Planetary Interaction (PI) allows you to produce NPC trade goods from Raw Materials you extract from a planet by building a colony on that planet. These Raw Materials can be processed in the colony into various NPC trade goods. These trade goods were originally only provided by NPC market orders, but the production of these items is now completely in the hands of the players, and prices and ...

Planetary interaction - Backstage Lore Wiki

Planetary Commodities are the materials and resources generated through Planetary Interaction. There are four tiers of planetary commodities produced in planetary interaction, each of which is used either in creating the next highest tier of commodity, or directly in another type of Industry as an input. Each type of planet has a mix of Raw Materials (sometimes called P0 commodities) which can ...

PI stands for Planetary Interaction. PI is you building some stuff on a planet that collects the resources on said planet. After that you can refine those resources Going from: $RO \rightarrow P1 \rightarrow P2 \rightarrow P3 \rightarrow P4$ This link covers the raw materials and what they refine in to. Then you collect those materials and either sell them or make stuff with them.
