deficient thyroid production. if it occurs during childhood it causes cretinism, which results in stunted mental and physical growth. the extreme adult form is myxedema, which is characterized by facial and orbital edema

Chapter 15 - Endocrine System Flashcards | Quizlet

History. The term endocrine disruptor was coined at the Wingspread Conference Centre in Wisconsin, in 1991. One of the early papers on the phenomenon was by Theo Colborn in 1993. In this paper, she stated that environmental chemicals disrupt the development of the endocrine system, and that effects of exposure during development are often permanent.
