Documentation in Psychiatric Nursing Susan Anand1 Documentation is anything written or electronically generated that describes the status of a client or the services given to that client (1). In nursing practice, it is used to monitor a client's progress and to communicate with other care providers; it

#### Documentation in Psychiatric Nursing - ijhsnet.com

The nursing process structures nursing documentation. Progress notes are intended to be an evaluation of a patient's nursing diagnoses, interventions and outcomes. Within this template, a patient's status and the care provided are to be recorded. The therapeutic nurse-patient relationship is recognised as a key component of psychiatric care today.

# Nursing documentation in inpatient psychiatry: The ...

Quality in nursing documentation facilitates continuity of care and patient safety. Lack of communication between healthcare providers is associated with errors and adverse events. Shortcomings are identified in nursing documentation in several clinical specialties, but very little is known about the quality of how nurses document in the field of psychiatry.

#### Assessment of quality in psychiatric nursing documentation ...

by Richard Morganstern, MD. Inpatient psychiatric nurses play an important role as information collectors so that, among other things, psychiatrists will make the right medication decisions. Here are ten pieces of information that psychiatrists would like to read in a nurse's note. This information should appear in at least one nursing progress note per shift.
