Empower System Suitability Quick Reference Guide

• Empower calculates over 50 system suitability results – Resolution – USP Tailing – Symmetry Factor – EP Plate Count – Width determinations • These are documented in Help and the System Suitability Quick Reference Guide (available on our website)

Aspects of HPLC analysis (System Suitability)

USP Suitability in Empower. I was curious when Empower (in my case Empower 2) was going to update the suitability module to match the recent (well some back to 2009) changes to the USP. In particular this is in regards to the new USP signal to noise calculations. I realize that since USP has harmonized with EP, that EP s/n is the same as USP.

USP Suitability in Empower — Waters Community Forum

The Empower Dissolution option is used with the Waters Alliance Dissolution System or with any other HPLC-based dissolution system. When used with the Waters Alliance Dissolution System, the dissolution software option allows you to acquire, process, review, and report dissolution test data.
