Investing in the stock market is a good example of a speculative risk. When you invest money, you have the chance to make money if the stock price rises. However, if the stock price falls, you risk the chance of losing money. A controllable risk is one that can be reduced or possibly even avoided by actions you take.

Planning is an ongoing process. Entrepreneurs frequently refer back to their business plan for guidance. Likewise, the planning that you do once your business is up and running will help you maintain focus and keep your business on track. Once plans are in place, it does not mean they must be followed exactly. Plans can be revised as needs change.
