Employee Training And Development Noe

Training and development involves improving the effectiveness of organizations and the individuals and teams within them. Training may be viewed as related to immediate changes in organizational effectiveness via organized instruction, while development is related to the progress of longer-term organizational and employee goals. While training and development technically have differing ...

1. Introduction. Organizations invest in employee training with the expectation that training will enable employees to perform better and more efficiently, thus improving the organization's productivity (Nielsen, Randall, & Christensen, 2010; Sahinidis & Bouris, 2008). However, the literature on the effect of training on individual and organizational performance is equivocal (Tharenou, Saks ...
