A program logic is another formative evaluation tool. Program logic is also known as outcome model, outcome logic, logic model, or outcome hierarchy. We show you how to create a program logic. The logic sets out what a project will do and how it will do it. In other words, it represents a project's theory of change.

Program Logic - Evaluation Toolbox

This Toolkit was designed explicitly for First Nations communicators and is based on input from First Nations communicators and administrators working for First Nations organizations. It offers information on many topics, including communications planning, publications, events and media relations, from a First Nations' perspective.
