The day your solar panels are installed is the day you will get the best performance out of them. After that it is all down hill. Admittedly, it is a very shallow hill and it might take over 40 years to get to the bottom, but day one is going to be as good as it gets.. One of the reasons for this is dirt. As soon as your panels are out in the open in the clean air, or not so clean air, dust ...
