Hello Experts,I am doing RF configuration in my sand box system for the first time and have not been successful so far.Can someone please guide me step by step to be able to work with standard RF menu.?Regards,Khushboo

Using RF in SAP EWM
Support of mobile data entry/scanning devices (RF) is an integral function in EWM and can be used for all warehouse processes. Integrated with the RF functionality is the resource management function that is used to link warehouse resources, people and material handling equipment, to the RF environment to ensure that the proper resources are assigned to a warehouse task.
