(PDF) Learning and enactive interfaces - ResearchGate

The enactive interface in the figure interprets manual input and provides a response in perceptual terms in the form of images, sounds, and haptic (tactile) feedback. The system is called enactive because of the feedback loop in which the system response is decided by the user input, and the user input is driven by the perceived system responses.

Enactive interfaces - Wikipedia

The enactive interface in the figure interprets manual input and provides a response in perceptual terms in the form of images, sounds, and haptic (tactile) feedback. The system is called enactive because of the feedback loop in which the system response is decided by the user input, and the user input is driven by the perceived system responses.

Enactive Interfaces - Enactive Learning

This bibliography focuses on enactive, embodied and kinaesthetic learning in business studies. This bibliography should be used in conjunction with the bibliography of Open-space Learning by Barry Sheils, by those interested in the application of performance practices to business training and education.

Enactive, Embodied and Kinaesthetic Learning in Business ...

Cognitive Learning Theory. The cognitive view of learning is the result of our attempts to make sense of the world, and to do this we use all the mental tools at our disposal. Alburt Bandura focuses on congitive factors such as beliefs, self-perceptions, and expectations, so his theory is now called a social cognitive theory.

Cognitive Learning Theory - The University of Vermont

Key words: Online course self-efficacy, Enactive mastery experience, Online course experience Along with the astonishing growth of computer and/or Internet-integrated instruction, advanced, user-friendly, computer applications and computer mediated communication (CMC) technologies have been developed and integrated in online learning.

The Relationship between Enactive Mastery Experiences and ...

Bruner's Theory of Constructivism The outcome of cognitive development is thinking. The intelligent mind creates from experience "generic coding systems that permit one to go beyond the data to

new and possibly fruitful predictions" (Bruner, 1957, p. 234).

Bruner's Theory of Constructivism - Semantic Scholar
Enactive cognition Cognition is the adaptive interaction between an autonomous agent and its environment. This means that our thinking is not something that occurs in our heads and is then expressed in our behaviour, but is constituted in the adaptive interaction itself. Cognition is a bit like a handshake.

Enactive Cognition - David Vernon
